

100% meltblown

Whether you're cleaning up grease or heavy oil in the workshop, having a suitable and easy-to-use cloth at hand is essential for your operation.

You can rely on D-TEX to provide a variety of wipes suitable for different purposes, instead of traditional multi-purpose wipes, improve work efficiency and improve the working environment.

D-TEX 100% polypropylene oil-absorbent wipes, using advanced meltblown technology, the cloth surface is fluffy and lint free. Can quickly absorb oil, grease, or solvents. It feels soft, strong, and durable. Especially for the wiping of parts of some heavy machines, it has an excellent performance. Very suitable for automotive manufacturing, automotive maintenance, heavy machinery manufacturing, etc.
